

## ELMARK – 316 STAINLESS STEEL CABLE TIES – ROLLER BALL

ELMARK range of roller type stainless steel cable is simple in construct and are easy to install. Engineered to perfection, these roller blades are used in various industries like construction, petro-chemicals, fire protection etc.

Stainless ties offer a super strong, long lasting fireproof option and perfect choice for hostile environments, offers high levels of corrosion and UV resistance, so it withstands extreme weather conditions and heat withstand up to +530°C

### Features :

- This roller ball design tie are self locking and very easy to install.
- Fixing can be done by hand, tool & both.

### Specification:

- Min. loop tensile strength - 4.6mm width 44.5kg
- Min. loop tensile strength - 7.9mm width 113.6kg

### Operating Temperature:

- -80°C to +538°C

### Applications:

- Construction, Automobile, Offshore, Petro-Chemical Industries, Fire Protection, Aerospace, Flame Proof Installation etc.
