LED SUPERSTAR Gimble Downlight Range

The LEDVANCE® LED SUPERSTAR Gimble Downlight Range features a high precision TIR lens which ensures uniform brightness without light scattering or glare. It delivers a concentrated broad 60 degree beam just like the popular halogen MR16 down light. The gimble feature allows adjustment of the beam direction by up to 30° to meet a wide range of general, accent and task lighting requirements in commercial and residential applications. Available in both 70mm and 92mm cut outs and Warm White 3000K or Cool White 4000K colour temperatures. It's a stylish direct replacement for halogen MR16 or GU10 lamp based downlights.

Product Features & Benefits:

- High precision Total Internal Reflection (TIR) lens delivers uniform brightness
- Delivers concentrated controlled 60 degree beam just like halogen MR16
- Gimble allows up to 30° adjustment of beam direction for comfort, accent or task lighting
- Recessed lens and precision optics ensure low glare
- Smooth dimming performance
- Classic simple modern design
- 30,000 hours lifetime @ L70
- Efficacy of 90Lm/W
- Quality patented (intellectual property compliant) LED chips
- IC4 rated – fully coverable with insulation
- Pre-wired with 1.2m flex and plug for quick installation

Application Areas:

- Commercial and Residential
